

Water Diversionary Permit

CDF is to report to the Water Resources Control Board annually the water used during the last year. This report is made upon a pink "Progress Report By Permittee" form supplied by the State Water Resources Control Board. Forms will be forwarded to the region when they are received from the Board. The region is to complete the form and return to Sacramento Headquarters, Technical Services, for posting and forwarding to the State Water Resources Control Board.

Water Diversionary Leases

CDF is required to report to the State Water Resources Control Board every three-year period. Forms are furnished by the State Water Resources Control Board to Sacramento Headquarters, Technical Services, which forwards them to the region for completion. The form titled "Report of Licensee" is a three-part form. The region retains one copy and forwards the remaining two to Sacramento Headquarters, Technical Services, which posts and forwards the original to the State Water Resources Control Board.

Supplemental Statement of Water Diversion and Use

The State Water Rights Board also has a "Supplemental Statement of Water Diversion and Use." It encourages those who make riparian diversionary use of surface waters to report and file each three years. These reports will then form the basis for estimating how much additional water is available for use to others.
